Introduction:
With a plethora of streaming services one tends to waste time in searching for a platform to stream their favorite movies and TV shows.
Our website is a one stop hub for all the movies and shows of various genres.

Motivation:
With the advancement of technology, watching on-demand has become a common thing. But with so many streaming options one tends to waste time in searching from which site they can stream their favorite movies and TV shows. With this movie/tv show hub one can search for any movie or show and get all the information. This website will also give suggestions based on the genres and ratings.

Core Features:
1. **Landing Page**
   - Explain the purpose of the website
   - Sign in option for the users
2. **Movies/TV Shows Page**: List of all the TV shows and movies sorted by genres/ streaming service
3. **Search bar**
4. **Individual Movie/ TV show page:**
